Telling Stories with Data

Flight Delays and Cancellations

Insight 1.
- https://public.tableau.com/app/profile/mecthetech/viz/WhichAirlineshavetheWorstDelays_16787660184440/AirlinesWorstDelays?publish=yes
- In chart 1 I used a scatter plot chart to show the airline delays with different shapes for each airline. I found that airline WN has the worst airline delays at 182,670.
- Scatter Plot Chart

Insight 3.
- https://public.tableau.com/app/profile/mecthetech/viz/dashboard_16787885832370/Dashboard1?publish=yes
- In my dashboard the top chart shows which airline has the most air time which is WN this is easily seen using the horizontal bar chart. The bottom chart also uses a tree map chart to show which airline has the most weather delays, DL.
- Tree Map Chart
